FORWARD

To the members of the South Dakota Association of Towns and Townships

This manual is being produced for you, the township officials in South Dakota, with the assistance of the **EMC Safety Dividend Program**. We hope you will find it helpful in administering the duties of your office.

We want to caution you, however, this manual is designed to be a guide only. Each year changes are made to South Dakota law and some of those changes affect townships. This updated version of the manual reflects South Dakota law as it exists in 2023. Much of township law has remained the same for decades. However, there are some sections that have been changed and others may be changed within the next few years. You may access all of South Dakota Codified Law at your local courthouse or by accessing the Legislative Research Council Home Page on the Internet at:

https://sdlegislature.gov/Statutes/Codified_Laws

As a township official, you may have questions or problems that arise which are not answered in the book. The South Dakota Association of Towns and Townships Board of Directors and staff are available to assist those townships and small towns which are members of the South Dakota Association of Towns and Townships. If necessary, we may refer you to legal counsel to ensure and protect the interests of the citizens of the township you represent. Any legal cost incurred in such instances will be the sole responsibility of the township.

We hope this manual will help simplify the demanding position of being a township officer. If you have any questions or concerns, please feel free to contact the South Dakota Association of Towns and Townships office.

NOTES

Open Public Meetings

1-25 and 1-27

Selected Statutes Only

1-25-1. Official meetings open to public--Exceptions--Public comment--Violation as misdemeanor.

The official meetings of the state and its political subdivisions are open to the public unless a specific law is cited by the state or the political subdivision to close the official meeting to the public.

It is not an official meeting of one public body if its members provide information or attend the official meeting of another public body for which the notice requirements of § 1-25-1.1 or 1-25-1.3 have been met. It is not an official meeting of a public body if its members attend a press conference called by a representative of the public body.

For any event hosted by a nongovernmental entity to which a quorum of the public body is invited and public policy may be discussed, but the public body does not control the agenda, the political subdivision may post a public notice of a quorum, in lieu of an agenda. The notice of a quorum shall meet the posting requirements of § 1-25-1.1 or 1-25-1.3 and shall contain, at a minimum, the date, time, and location of the event.

The public body shall reserve at every official meeting a period for public comment, limited at the public body's discretion as to the time allowed for each topic and the total time allowed for public comment, but not so limited as to provide for no public comment.

Public comment is not required at official meetings held solely for the purpose of meeting in executive session, an inauguration, swearing in of newly elected officials, or presentation of an annual report to the governing body, regardless of whether the activity takes place at the time and place usually reserved for an official meeting.

If a quorum of township supervisors, road district trustees, or trustees for a municipality of the third class meet solely for purposes of implementing previously publicly adopted policy; carrying out ministerial functions of that township, district, or municipality; or undertaking a factual investigation of conditions related to public safety; the meeting is not subject to the provisions of this chapter. A violation of this section is a Class 2 misdemeanor.

1-25-1.1. Notice of meeting of political subdivision--Agenda--Violation as misdemeanor.

Each political subdivision shall provide public notice, with proposed agenda, that is visible, readable, and accessible for at least an entire, continuous twenty-four hours immediately preceding any official meeting, by posting a copy of the notice, visible to the public, at the principal office of the political subdivision holding the meeting. The proposed agenda shall include the date, time, and location of the meeting. The notice shall also be posted on the

political subdivision's website upon dissemination of the notice, if a website exists. For any special or rescheduled meeting, the information in the notice shall be delivered in person, by mail, by email, or by telephone, to members of the local news media who have requested notice. For any special or rescheduled meeting, each political subdivision shall also comply with the public notice provisions of this section for a regular meeting to the extent that circumstances permit. A violation of this section is a Class 2 misdemeanor.

1-25-1.5. Teleconference meeting or hearing--Quorum--Vote. Any official meeting may be conducted by teleconference. A teleconference may be used to conduct a hearing or take final disposition regarding an administrative rule pursuant to § 1-26-4. A member is deemed present if the member answers present to the roll call conducted by teleconference for the purpose of determining a quorum. Each vote at an official meeting held by teleconference may be taken by voice vote. If any member votes in the negative, the vote shall proceed to a roll call vote.

1-25-1.6. Public participation in teleconference meeting. At any official meeting conducted by teleconference, there shall be provided one or more places at which the public may listen to and participate in the teleconference meeting. For any official meeting held by teleconference, that has less than a quorum of the members of the public body participating in the meeting who are present at the location open to the public, arrangements shall be provided for the public to listen to the meeting via telephone or internet. The requirement to provide one or more places for the public to listen to the teleconference does not apply to official meetings closed to the public pursuant to specific law.

1-25-2. Executive or closed meetings--Purposes--Authorization--Violation as misdemeanor. Executive or closed meetings may be held for the sole purposes of:

- (1) Discussing the qualifications, competence, performance, character or fitness of any public officer or employee or prospective public officer or employee. The term, employee, does not include any independent contractor;
- (2) Discussing the expulsion, suspension, discipline, assignment of or the educational program of a student or the eligibility of a student to participate in interscholastic activities provided by the South Dakota High School Activities Association;
- (3) Consulting with legal counsel or reviewing communications from legal counsel about proposed or pending litigation or contractual matters;

- (4) Preparing for contract negotiations or negotiating with employees or employee representatives;
- (5) Discussing marketing or pricing strategies by a board or commission of a business owned by the state or any of its political subdivisions, when public discussion may be harmful to the competitive position of the business; or
- (6) Discussing information pertaining to the protection of public or private property and any person on or within public or private property specific to:
 - (a) Any vulnerability assessment or response plan intended to prevent or mitigate criminal acts;
 - (b) Emergency management or response;
 - (c) Public safety information that would create a substantial likelihood of endangering public safety or property, if disclosed;
 - (d) Cyber security plans, computer, communications network schema, passwords, or user identification names;
 - (e) Guard schedules;
 - (f) Lock combinations;
 - (g) Any blueprint, building plan, or infrastructure record regarding any building or facility that would expose or create vulnerability through disclosure of the location, configuration, or security of critical systems of the building or facility; and
 - (h) Any emergency or disaster response plans or protocols, safety or security audits or reviews, or lists of emergency or disaster response personnel or material; any location or listing of weapons or ammunition; nuclear, chemical, or biological agents; or other military or law enforcement equipment or personnel.

However, any official action concerning the matters pursuant to this section shall be made at an open official meeting. An executive or closed meeting must be held only upon a majority vote of the members of the public body present and voting, and discussion during the closed meeting is restricted to the purpose specified in the closure motion. Nothing in § 1-25-1 or this section prevents an executive or closed meeting if the federal or state Constitution or the federal or state statutes require or permit it. A violation of this section is a Class 2 misdemeanor.

1-25-3. Minutes of proceedings--Availability to public--Violation as misdemeanor. The state shall keep detailed minutes of the proceedings of all regular or special meetings. The minutes required in this section shall report how each individual member voted on any motion on which a roll call vote is taken. The minutes shall be available for inspection by the public at all times

at the principal place of business of the board or commission. A violation of this section is a Class 2 misdemeanor.

1-25-6. Duty of state's attorney on receipt of complaint alleging chapter violation. If a complaint alleging a violation of this chapter is made pursuant to § 23A-2-1, the state's attorney shall take one of the following actions:

- (1) Prosecute the case pursuant to Title 23A;
- (2) Determine that there is no merit to prosecuting the case. Upon doing so the state's attorney shall send a copy of the complaint and any investigation file to the attorney general. The attorney general shall use the information for statistical purposes and may publish abstracts of such information, including the name of the government body involved for purposes of public education; or (3) Send the complaint and any investigation file to the South Dakota Open Meetings Commission for further action.

1-25-7. Consideration by commission of complaint or written submissions alleging chapter violation--Findings--Public censure.

Upon receiving a referral from a state's attorney or the attorney general, the South Dakota Open Meetings Commission shall examine the complaint and investigatory file submitted by the state's attorney or the attorney general and shall also consider signed written submissions by the persons or entities that are directly involved. Based on the investigatory file submitted by the state's attorney or the attorney general and any written responses, the commission shall issue a written determination on whether the conduct violates this chapter, including a statement of the reasons therefor and findings of fact on each issue and conclusions of law necessary for the proposed decision.

The final decision shall be made by a majority of the commission members, with each member's vote set forth in the written decision. The final decision shall be filed with the attorney general and shall be provided to the public entity and or public officer involved, the state's attorney, and any person that has made a written request for such determinations.

If the commission finds a violation of this chapter, the commission shall issue a public reprimand to the offending official or governmental entity. However, no violation found by the commission may be subsequently prosecuted by the state's attorney or the attorney general. All findings and public censures of the commission shall be public records pursuant to § 1-27-1. Sections 1-25-6 to 1-25-9, inclusive, are not subject to the provisions of chapter 1-26.

1-25-11. Recording of open official meeting to be permitted. No public body may prevent a person from recording, through audio or video technology, an official meeting as long as the recording is reasonable, obvious, and not disruptive. This section does not apply to meetings closed to the public pursuant to specific law,

However, this section does not apply if an audio or video recording of the meeting is available to the public on the governing body's website within five business days after the meeting. A violation of this section is a Class 2 misdemeanor. However, the provisions of this section do not apply to draft minutes of contested case proceedings held in accordance with the provisions of chapter 1-26.

5-18A

BIDS and CONTRACTS

Selected Statutes Only

5-18A-3. Methods of awarding contracts.

Unless otherwise authorized by law, each contract for supplies, services, and construction shall be awarded by one of the following methods:

- (1) Competitive sealed bids as provided in § 5-18A-5;
- (2) Competitive sealed proposals as provided in §§ 5-18A-6 and 5-18A-7;
- (3) Small purchases as provided in § 5-18A-11;
- (4) Sole source procurement as provided in § 5-18A-8; or
- (5) Emergency procurement as provided in § 5-18A-9.

5-18A-7. Procedures for competitive sealed proposals.

The procedures for issuing a contract through competitive sealed proposals are as follows:

- (1) The proposals shall be solicited through a request for proposals. The request for proposals shall state the relative importance of price and other factors, if any;
- (2) Public notice of the request for proposals shall be given pursuant to [5-18A-14](#);
- (3) A proposal may be submitted either manually or electronically in a manner authorized by the purchasing agency;
- (4) Each proposal shall be opened so as to avoid disclosure of contents to competing offerors during the process of negotiation. A register of proposals shall be prepared documenting the name and address of each offeror and identifying each offeror awarded a contract. The register shall be open for public inspection after contract award;
- (5) As provided in the request for proposals, a discussion may be conducted with any responsible offeror who submitted a proposal determined to be reasonably susceptible of being selected for award for the purpose of clarification to assure full understanding of, and responsiveness to, the solicitation requirements. Each offeror shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of a proposal. A revision may be permitted after a submission and prior to an award for the purpose of obtaining the best and final offer. In conducting any discussion, there may be no disclosure of any information derived from any proposal submitted by a competing offeror;
- (6) An award shall be made to the responsible offeror whose proposal conforms to the solicitation and is determined in writing to be the most advantageous to the purchasing agency taking into consideration price and the evaluation factors set forth in the request for proposals. No other factors or criteria may be used in the evaluation. The contract file shall contain the basis on which the award is made. Written notice of the award of a contract to the successful offeror shall be promptly given to each offeror. The purchasing agency may reject any and all proposals and readvertise for proposals if none of the proposals are satisfactory, or if the purchasing agency believes any agreement has been entered into by the offerors to prevent competition; and

(7) This section does not apply to state professional service contracts issued pursuant to § 5-18A-37 and §§ 5-18D-17 to 5-18D-24, inclusive.

5-18A-9. Emergency procurement. A purchasing agency may make or authorize others to make an emergency procurement without advertising the procurement if rentals are not practicable and there exists a threat to public health, welfare, or safety or for other urgent and compelling reasons. Failure to abide by the bid provisions of this chapter and chapters 5-18B, 5-18C, and 5-18D in a timely manner is not an emergency. An emergency procurement shall be made with such competition as is practicable under the circumstances. A written determination of the basis for the emergency and for the selection of the particular contractor shall be included in the contract file.

5-18A-11. Purchases of supplies and services under fifty thousand dollars.

Unless otherwise specified by statute, purchases of supplies and services under fifty thousand dollars must be made as follows:

- (1) Notwithstanding other provisions of chapter 5-18A or 5-18D, the Bureau of Administration may authorize state agencies and institutions to make purchases of supplies over four thousand dollars and under fifty thousand dollars by obtaining three quotes from different vendors. If three quotes cannot be obtained, the Bureau of Administration may approve the purchase if in the best interest of the state, require additional quotes to be obtained, or require the purchase be advertised for bids;
- (2) State purchases of supplies under four thousand dollars may be made in accordance with procedures established by the purchasing agency in the best interests of the state;
- (3) State purchases of services under fifty thousand dollars may be made in accordance with procedures established by the purchasing agency in the best interests of the state; and
- (4) For all other purchasing agencies, purchases under fifty thousand dollars may be made in accordance with procedures established by the purchasing agency. No purchases may be artificially divided to constitute a small purchase under this section.

5-18A-14. Public improvement contracts--Supplies and services contracts--Advertisement for bids or proposals. If the purchasing agency intends to enter into a contract for any public improvement that involves the expenditure of one hundred thousand dollars or more, or a contract for the purchase of supplies or services, other than professional services, that involves the expenditure of fifty thousand dollars or more, the purchasing agency shall advertise for bids or

proposals. The advertisement shall appear as a legal notice in the appointed legal newspaper. The advertisement shall be printed at least twice, with the first publication at least ten days before opening of bids or the deadline for the submission of proposals. The first publication shall be in each official newspaper of the purchasing agency, and the second publication may be in any legal newspaper of the state chosen by the purchasing agency. If the purchasing agency has no official newspaper, the first publication shall be made in a legal newspaper with general circulation in the jurisdiction of the purchasing agency to be selected by the purchasing agency. The advertisement shall state the time and place where the bids will be opened or the deadline for the submission of proposals. In each notice, the purchasing agency shall reserve the right to reject any or all bids or proposals.

- (8) Any contract with any firm, association, corporation, individual, or cooperative association for which competitive bidding procedures are followed pursuant to chapter 5-18A, and where only one such competitive bid is submitted, provided the procedures established in § 6-1-2.1 are followed.

8-1

8-1-2. Creation - Boundaries - Alterations. The board of county commissioners shall continue to divide the county into as many civil townships as the conveniences of the citizens may require, and shall accurately define the boundaries thereof, and may from time to time make such alterations in the number, names, and boundaries thereof as it may deem proper, by advice of the people as provided for in this chapter.

8-1-3. - Maximum size / Minimum number of voters. Any contiguous territory that has at least five resident voters and includes a maximum of four congressional townships, together with any fractional townships that are contiguous with any of the congressional townships, may be organized as a civil township.

8-1-5. Organization on petition of voters. Whenever a majority of the legal voters of a civil township, formed as provided in §8-1-2, shall petition the board of county commissioners for civil township organization, such board shall perfect the civil township organization thereof by appointing a board of supervisors for such township to act until its officers are duly elected and qualified as provided by this title.

8-1-6. Name. The township so organized shall be named in accordance with the expressed wish of a majority of the voters thereof; but if they fail to so designate a name, the board of county commissioners may select the name.

8-1-7. Reorganization - Division - Merger. Any township may be reorganized, divided, or merged as provided in §§ 8-1-8, 8-1-9, and 8-1-10 if each resulting township contains at least five resident voters.

8-1-8. Conditions for organization, reorganization, division, or merger of townships or of fractions of townships--Petition by voters. Any township or fraction of a township may be organized, reorganized, divided, or merged with another township or fraction of a township, subject to approval by the voters in the affected civil townships and the affected portions of unorganized congressional townships as provided in §§ 8-1-7 to 8-1-10, inclusive, if:

- (2) The affected township boards propose to the board of county commissioners that the townships or fractions of townships be reorganized, divided, or merged; or

- (3) A majority of the registered voters residing in the affected townships petition the board of county commissioners to propose that the townships or fractions of townships be organized, reorganized, divided, or merged.

8-1-9. Hearing to consider proposed organization, reorganization, division, or merger of township or fraction of township--Notice. If the conditions of subdivision 8-1-8 (1), (2), or (3) are met, the board of county commissioners must hold a public hearing to consider the proposed organization, reorganization, division, or merger. The hearing may be conducted in conjunction with a regularly scheduled meeting of the board of county commissioners. At least twenty days before the hearing, the board of county commissioners shall publish notice of the hearing in the official newspapers of the county and shall send the notice to the township clerk and to each member of the board of supervisors of the affected townships.

8-1-10. Election to decide reorganization, division, or merger of townships. Following the hearing required in § 8-1-9, the proposed reorganization, division, or merger shall be decided by the voters of the affected civil townships and the affected portions of unorganized congressional townships by ballot at the next regular township election. Any registered voter residing in the affected portion of an unorganized congressional township shall be afforded the opportunity to vote in conjunction with the election held in the township to which the unorganized area is proposed to be attached, except that the votes of such persons shall be tabulated separately by officials of the township. The board of supervisors of each affected township shall publish notice of election in the same manner as provided in chapter 8-3 for publication of notice of the annual township meeting. If any portion of an unorganized congressional township is proposed to be attached to a civil township, the affected civil township shall also publish its notice in any official newspaper of the county that is not an official newspaper of the township. If a majority of the votes cast in each of the affected townships and in the affected portion of each affected unorganized congressional township are in favor of the proposed reorganization, division, or merger, the proposal shall be implemented as provided in this chapter. If no vote is cast by any resident of an affected portion of a civil township or unorganized congressional township, the board of county commissioners of the county in which the affected portion is located shall determine the status of the affected portion for purposes of deciding the results of the election in the affected portion.

8-1-11. Name of merged or separated township. Any civil township so formed by merger of townships or by separation from the original township shall be

named in accordance with the expressed wish of a majority of the legal voters of the new township; but if they fail to designate a name, or the same cannot be properly given to such township, the board of county commissioners may designate a name.

8-1-12. First annual meeting of separated township - Notice. The board of county commissioners shall designate suitable places in each new civil township so formed for holding the first annual township meeting. Notice of the time and place of holding the annual township meeting shall be given by the township clerk of the township so divided as provided by law.

8-1-13. Continuation of original township. The civil township, a division of which has been declared as hereinbefore provided, shall continue as previously organized, and the officers thereof shall hold their offices until the next annual township meeting, at which meeting there shall be elected in each of the new townships so organized, by the legal voters thereof, all the township officers provided by law.

8-1-14. Adjustment of assets and indebtedness after division. If any civil township is subdivided, reorganized, or merged according to the provisions of this chapter, which has been bonded for school or other purposes, or against which there is any other outstanding indebtedness, and if money raised by taxation in the township has been expended for the erection of school buildings or other public improvements, which on such subdivision, reorganization, or merger inures to the benefit of one of the new townships to a greater extent than is equitable, the matter shall be adjusted as provided in §§ 8-1-15 to 8-1-19, inclusive.

8-1-15. Board for adjustment and settlement. The board of township supervisors may designate a township road within the township as a minimum maintenance road if the board determines that the road or a segment of the road is used only occasionally or intermittently for passenger and commercial travel. The board shall identify the beginning and end points of the road designated as minimum maintenance. A minimum maintenance road may be maintained at a level less than the minimum standards for full maintenance roads, but shall be maintained at the level required to serve the occasional or intermittent traffic.

31-13-1.2. Posting of warning signs on minimum maintenance roads. The board of township supervisors shall post signs on a minimum maintenance road to notify the motoring public that it is a minimum maintenance road and that the public travels on the road at its own risk. The board of township supervisors shall post signs on a no maintenance section line to notify the motoring public that it is a no maintenance section line and that no travel is advised. 31-13-2. Designation of board member as overseer--Compensation.

The board of township supervisors shall designate at least one of its members to attend to the road business in the township. 31-13-13. Joint contracts for construction and maintenance of township roads. The board of supervisors of any township may jointly contract with the county of which the township is a part, and also with any municipality within or adjoining the township, for the laying out, construction, graveling, hard surfacing, or maintenance of designated township roads. The agreement shall designate the governing board to be charged with contracting for performance of the work, provide for supervision of the work and allocate the costs between the units of government participating. The board of township supervisors may also contract with any other political subdivision, homeowners' association, or rural subdivision developer to perform maintenance work on any road that is not on the township road system. Maintenance work performed on a road under contract does not imply dedication or acceptance of the road to the township road system.

31-13-18. Affidavit of township failure to maintain mail route - Service of affidavit and notice on township. Whenever it shall appear by an affidavit filed by a patron of the mail route with the county auditor that a certain described secondary road in any township of the county is regularly used as part of a United States mail route, and is, in certain designated places, in urgent need of repairs to put such road in reasonably suitable condition for travel, or is, in certain designated places, likely to be made impassable by reason of the weeds along such highway not being cut, as provided by law, so as to prevent the forming of snowdrifts, or is in other respects not being suitably maintained as provided by law, and that the board of supervisors of the proper township has been notified of the condition complained of and has refused or neglected to attend thereto, it shall be the duty of the county auditor to cause copies of such affidavit to be served upon the clerk of the proper township and upon the chairman of the board of supervisors thereof, together with a notice that unless the repairs or maintenance referred to in the affidavit are attended to forthwith by such board and a certificate that the same has been done delivered to the county auditor, that such repairs or maintenance will be executed by the county at the expense of the township as in this chapter provided. Such copy and notice may be served by registered or certified mail.

If the fact of the execution of the repairs or maintenance referred to in §31-13-18 be not certified to the county auditor within a reasonable time, or if the county auditor be satisfied that such repairs or maintenance have not been or will not be attended to by the township board within such time, he shall immediately refer the matter to the county highway superintendent who shall personally examine the road and investigate the facts stated in the affidavit and if he finds the statements in such affidavit to be true and that the condition complained of still exists, he shall cause the necessary repairs and maintenance to be made at once and may purchase material and employ day labor therefore, or may contract the work necessary to put such road in a reasonable state of repair and maintenance.

Previously registered warrants, if any, shall be paid first in the order of their registration. Call for payment shall be made by mail addressed to the payee named in the warrant at the address left with the county treasurer, or to any assignee who may have left his address with the county treasurer.

31-13-27. Snow removal contracts with or without advertising. Contracts pursuant to §31-13-26 are authorized without advertising for bids if the total cost in a winter's season will not exceed thirty-five hundred dollars. If the cost will be less than thirty-five hundred dollars, the township supervisors may make contracts with any person, firm or corporation, including any county, for the removal of snow on its roads, or repair of such roads damaged from or caused by melting snow, either at an hourly or day rate. If it is anticipated that the cost in any one winter would exceed that sum, the snow removal or road repair shall be done by bids as provided by law. In case of such road damage, the work may be undertaken on bids as above specified, or upon an hourly or day rate for such work.

31-13-27.1. Snow creating emergency - Expenditures for removal without advertising for bids. In the event that in the judgment of the board of township supervisors a disaster exists resulting from snow and that the public peace and the health or safety of the people or their property is in jeopardy, the board of township supervisors may by resolution declare that an emergency exists, and any or all of the township snow removal fund may be expended for the purposes set forth herein without the necessity of advertising for bids.

The resolution shall state the streets to be improved, the general nature of the proposed improvement, the material to be used or materials from which a choice may be made, an estimate of the total cost per linear foot, a description of the classes of lots to be assessed, and the method of apportioning the benefits thereto as provided in §§ 31-13-42 to 31-13-46, inclusive.

31-13-34. Combining of streets in one resolution - Uniformity required. The improvement of more than one street may be embraced in one proposed resolution if the improvement is substantially uniform as to all streets embraced therein. Minor variations in the amount of earth work, drainage, or labor or other minor variations in the construction expense on different portions of the proposed improvement project shall not be considered as any departure from the uniformity required in this section.

31-13-35. Combining of streets in one resolution when improvements not uniform. If the improvements are not substantially uniform, then the improvement of two or more streets or portions of the same on which the improvements are not uniform may be included in one resolution, if the nature of

the improvement or its estimated cost per linear foot on each portion of the project is specified in the resolution. Any two or more improvements of the types herein specified which have been commenced by separate resolutions of necessity may thereafter be combined for all purposes, as determined by the board of township supervisors.

31-13-36. Assumption of portion of cost by township - Referendum. If it is deemed expedient for the township to assume and pay any portion of the cost of the improvement, the resolution may so provide, or the portion to be assumed may be provided by a subsequent resolution, subject to the right of referendum on such resolution, pursuant to the procedure set forth in §§ 31-3-14

31-13-37. Publication of resolution - Notice of supervisors' meeting - Hearing of objections. The resolution required by §31-13-33 shall be published once in the official newspapers of the county, with an appended notice stating the place and time, at least two weeks after such publication, at which the board of supervisors will meet for the consideration of the adoption of the resolution. The notice shall state the time and place at which the board of supervisors will consider any objections to the proposed resolution by owners of property liable to be assessed for the improvement.

31-13-38. Resolution not requiring publication. If the improvement is petitioned for by the owners of more than fifty-five percent of the frontage of the property to be assessed therefore, it may be provided for by resolution without publication.

31-13-39. Notice by mail to property owners - Contents - Address to which sent. In addition to the published notice required by § 31-13-37, the board of supervisors, at least fifteen days prior to the hearing on the adoption of the resolution, shall cause personal notice to be sent by first-class, registered or certified mail to each person owning property liable to be assessed for the improvement. The notice shall include all information required of the published notice. If the property is occupied and has a street address, the written notice shall be sent to the owner in care of such address and, if not, to the last known address of the owner.

31-13-40. Consideration of objections to improvement - Adoption of resolution - Notice to owners added by amendment. At the time of the meeting referred to in § 31-13-37 or at any adjournment thereof the governing body shall consider any objections to such proposed resolution and may adopt such resolution, with or without amendment as it may deem proper. No amendment shall be made affecting property of any class not included in the original resolution until the owner thereof shall have been given the notice and opportunity to be heard provided by §§ 31-13-37 to 31-13-39, inclusive.

31-13-41. Waiting period before actions on improvement - Ratification of prior actions. After twenty days from the adoption and publication of the resolution referred to in § 31-13-40, unless the referendum be invoked, pursuant to §§31-3-14 through 31-3-16, or unless a written protest shall have been filed with the township clerk and signed by the owners of more than fifty-five percent of the frontage of property liable to assessment, the board of supervisors may cause the improvement to be made, may contract therefore, and may levy and collect special assessments therefore as provided in this chapter. Any proceedings taken prior to the adoption of the resolution shall be deemed ratified.

31-13-42. Apportionment of benefits of improvement. In the circumstances mentioned in §§ 31-13-33 to 31-13-41, inclusive, the benefits shall be apportioned in the manner prescribed by § 31-13-43.

31-13-43. Costs paid by township - Deduction before assessment to property. If the board of supervisors by resolution so provides, any portion of the cost may be paid by the township out of its general funds appropriated for that purpose and the proper deduction shall be made of the cost to be so paid before the cost to be assessed is distributed to the several lots as required. The sum determined to be paid may be a fixed amount or fraction of the total cost of the improvement, or of a specified portion thereof on which the construction is substantially uniform. Such amount or fraction may be additional to any amounts assumed by the township in accordance with the provisions of §§ 31-13-47 to 31-13-49, inclusive, or the costs referred to in those sections may be paid therefrom, as determined by the resolution.

31-13-44. Assessment of costs to abutting property - Computation on front foot basis. The cost of the improvement, except the cost of street intersections, may be assessed to the property fronting or abutting on the improvement. The cost of each portion of the project on which the construction is by resolution substantially uniform shall be divided by the number of feet fronting or abutting on said portion of the project. The quotient shall be the rate of assessment per front foot throughout said portion of the project on which such uniformity exists.

31-13-45. Assessment to nearby property of intersection costs. The cost of each street intersection may be assessed to all lots according to area so as to include one-half of the property between the street improved and the next street, whether the property abuts the street. In no case may the property situated more than three hundred feet from the intersection be assessed.

31-13-46. Assessment according to special benefits - Investigation of benefits. In lieu of the method of apportionment prescribed in §§ 31-13-44 and 31-13-45, it may be provided in and by the resolution determining the necessity of any street improvement that the cost shall be assessed against all assessable lots and tracts of land fronting or abutting thereon or lying within one-half block or three hundred feet thereof, whichever is less, according to the benefits determined by the board of supervisors to accrue to each of such lots and tracts from the

construction of the improvement. In that event the board of supervisors, in preparing, considering, and hearing objections to the assessment, shall make such investigation as may be necessary and shall find and determine the amount in which each such lot and tract will be especially benefited by the construction of the improvement. The board of supervisors shall assess against each such lot and tract an amount, not exceeding the benefit, as shall be necessary to pay its just portion of the total cost of the work to be assessed.

31-13-47. Intersection cost assumed by township. In the resolution of necessity it may be provided that the township will pay any definite, specified portion or all of the cost of the improvements in street intersections.

31-13-48. Corner lot costs assumed by township or assessed to other property. In the resolution of necessity it may be provided that the township will pay any definite, specified portion or all of the cost of street improvements fronting or abutting on the long side of a corner lot, or it may be provided by a resolution that such portion of the cost may be spread as an area tax on the blocks fronting and abutting on said pavement so as to include one-half of the property between the street improved and the next street whether the property abuts the street. In no case may the property situated more than three hundred feet from the improvement be assessed.

31-13-49. Cost assumed by township when street has been previously improved. In the resolution of necessity it may be provided that the township will pay any portion or all of the cost of resurfacing, rebuilding, or repaving the portion of any street in which pavement has previously been placed or which has been previously constructed within the township.

31-13-50. Use of special assessment law. Notwithstanding the provisions of chapter 8-11, the board of supervisors of a township may use, as a method for the financing or repayment for the improvement, the provisions of chapter 9-43.

31-13-51. Annual front foot assessment for maintenance and repairs. The township board of supervisors or, in the case of any township which is no longer organized, the board of county commissioners, prior to the assessment of real property within the township, or unorganized township, for the next fiscal year, may levy annually for the purpose of maintaining or repairing street surfaces, whether of a permanent type or not, a special front foot assessment not to exceed two dollars per front foot upon the real property fronting and abutting the roadway. Such assessment shall be apportioned on a front foot basis and shall be levied pursuant to § 31-13-52. If the board of county commissioners is levying a special assessment on real property pursuant to this section, the board of county commissioners shall perform the duties, as applicable, that are required of the township board of supervisors pursuant to §§ 31-13-32 to 31-13-54, inclusive.

31-13-52. Levy of special assessments - Addition to general levy - Review and equalization. The township board of supervisors prior to the assessment of real property may, by resolution, designate the real property, the lot, or the portion of lots or real property against which the assessment is to be levied, the amount of the assessment against the real property, lot or portions thereof for such purposes, and direct the county auditor to add such assessment to the general assessment against the property to be collected as township taxes for general purposes. The assessment shall be subject to review and equalization the same as assessments or taxes for general purposes. For the purposes of this section, "front foot" shall mean the actual front of the premises as established by the buildings thereon, record title and use of the property regardless of the original plat thereof.

31-13-53. Records maintained by township clerk - Destruction of certain records. The township clerk shall keep on file a record of all proceedings taken in the matter of opening, altering, vacating, paving, or otherwise improving any street, and after the confirmation of any report in such matters he shall record all the proceedings taken in relation to the improvement. But, the clerk may destroy any record which the records destruction board, acting pursuant to §1-27-19, declares to have no further administrative, legal, fiscal, research or historical value.

31-13-54. Contracts and assessments not invalidated by defects - Supervisors' determination conclusive. No contract made or assessment levied for any such improvement shall be void by reason of any defect or irregularity in the resolution or notice or in the publication thereof. The determination of the board of supervisors as to the sufficiency or insufficiency of protests thereto shall be conclusive unless such determination is unreasonably and arbitrarily or fraudulently made.

31-13-55. Indemnity requirement for construction or survey work within road right-of-way. An organized township may require any person performing construction or survey work within any township road right-of-way which may damage such right-of-way to furnish an indemnity bond in a reasonable amount as determined by the township board to indemnify the township for any damage done beyond normal wear. However, if a registered professional engineer or a registered land surveyor is surveying land, as defined in subdivision 36-18-4.1 (5), for an individual landowner of the township, the provisions of this section do not apply.

31-13-56. Removal of baled or stacked foliage from right-of-way - Violation as petty offense. If the right-of-way of a township road has been mowed and the cut foliage has been baled or stacked in the right-of-way, the person owning the baled or stacked foliage shall remove the bales or stacks from the right-of-way by the first day of November. A violation of this section is a petty offense.

31-13-57. Private landowner assessed for erosion repair costs. If any landowner fails to prevent damage to a township road caused by severe and persistent wind or water erosion on the landowner's property, the township may repair the damage and assess the cost of the repairs against the landowner. If the landowner fails to pay the cost of the repairs before the first day of November in the year in which the repairs are performed, the cost shall be assessed against the landowner's property.

31-13-58. Approval of conservation district for repair of erosion damage - Notice to landowner - Declaration. No operations to repair erosion damage pursuant to §31-13-57 may be undertaken by the township unless the conservation district in which the land is located has by resolution approved such action and until a notice that the erosion on the lands constitutes a nuisance has been given to the owner by the township. Notice shall be given by personal service upon the owner or by personal service upon the person in actual possession of the premises, with a copy of the declaration filed in the office of the county auditor. The declaration shall state that unless the owner corrects the damage within thirty days of the declaration, repairs shall be undertaken by the township, and the cost shall be assessed against the landowner's property if not paid before the first of November. The resolution of assessment shall be recorded in the minutes of the board of county commissioners, the original delivered by the clerk of the board to the county auditor, and a copy sent by registered mail to the landowner at the address shown on the records of the county auditor and to the operator.

31-14

County And Township Bridges and Culverts

Selected Statutes

31-14-1. Definition of terms. Terms used in this chapter mean:

- (1) "Bridge," a structure, including supports, erected over a depression or an obstruction, as water, highway, or railway, the structure having a length measured along the center of the roadway of more than twenty feet between under couplings of abutments or extreme ends of openings for multiple boxes and pipes where the clear distance between openings is less than half of the smaller contiguous opening;
- (2) "Culvert," any structure not classified as a bridge that provides an opening under any roadway;
- (3) "Department," the Department of Transportation.

31-14-2. County commissioners' responsibility for bridges and culverts. The duty to construct and maintain all bridges and culverts throughout the county, except upon the state trunk highway system, is hereby imposed upon the board of county commissioners, subject to conditions relating to bridges and culverts on secondary highways in townships.

31-14-3. Drainage investigation of new or replacement bridge site.

After determining the necessity for any new or replacement bridge in the county, the board of county commissioners shall advise the county highway superintendent of the determination, and require the superintendent or a registered engineer retained by the board of county commissioners for that purpose to make a drainage investigation of the bridge site.

31-14-4. Plans and specifications for bridge construction--Preparation by department or engineer.

Any bridge, abutment, and approach or repair to a bridge required in any county of this state, shall be constructed in accordance with plans and specifications prepared by the department or a registered engineer retained by the board of county commissioners for such purpose. The plans and specifications shall show and describe the style and size thereof, the kind, weight, and quality of all materials to be used in the construction and the proper proportion of the ingredients for mixture and reinforcements.

31-14-24. Emergency contracts for repair of bridges and approaches authorized.

Whenever an emergency arises requiring immediate expenditure for the repair or rebuilding of bridges and approaches to bridges, when such bridges and approaches to bridges are required to be built immediately, and on such short time that in the judgment of the board of county commissioners the public would be seriously inconvenienced in awaiting the regular advertising for bids for such building and rebuilding of bridges and approaches, the board of county commissioners may enter into contract for any such building or rebuilding of bridges and approaches to bridges without advertising for the letting of any contract therefor.

31-14-27. County construction or replacement of bridges and culverts on township secondary roads--Reimbursement of county.

If a township board of supervisors or county highway superintendent requests the board of county commissioners to construct or replace in its entirety any bridge or the placing or replacing of any culvert with an opening of sixteen square feet or more including material upon the secondary roads within the township, the board of county commissioners may cause the work to be done and the township shall reimburse the county up to and including five hundred dollars. If the cost is in excess of five hundred dollars, the county and township may enter into an agreement as to how the cost in excess of five hundred dollars will be split between the county and the township. After the placing or replacing of any culvert as provided in this section, the culvert shall be maintained and kept clean at the expense of the township. The construction or replacing of any bridge or the placing or replacing of any culvert with an opening of less than sixteen square feet upon a secondary road within a township shall be at the total expense of the

township. The bridge or culvert shall be maintained and kept clean at the expense of the township.

31-14-31. Drainage ditch bridges. Bridges erected over drainage ditches shall, where necessary, be so constructed as to allow the superstructure to be removed for cleaning such ditches with as little damage in the removal to permanent parts of said bridge as practicable.

31-14-33. Inspection of township culverts--Duty of board of supervisors. The township board of supervisors shall have each culvert on the secondary highways within the township annually inspected and, if necessary, repaired.

31-14-34. Inspection of culverts on secondary highways and county highway system - Duty of county highway superintendent. The county highway superintendent shall make inspection of all culverts on secondary highways other than those described in § 31-14-33 and of all culverts on the county highway system and report to the board of county commissioners, which shall cause necessary repairs to be made.

31-14-35. County line bridges - Agreement apportioning responsibility - Cost of large bridges divided equally. It shall be lawful and the duty of the respective boards of county commissioners of the counties adjoining any highway or meandered stream on a county line in this state to divide that portion of such county line between such counties into two or more parts or districts, and to enter into an agreement and contract providing that each of such counties shall assume the liability and become responsible for the construction and maintenance of all necessary bridges upon such county line in the district allotted to such county. In case the stream forming the boundary between two counties shall be so large that one county alone is unable to build a bridge out of the ordinary amount of funds available, it shall be the duty of the two counties when a bridge is built over such stream to divide the expense equally between such two counties.

31-14-36. County line bridges--Considerations in apportioning responsibility--Apportionment by department. In making such apportionment of any highway or meandered stream constituting the county line between two or more counties, as provided by § 31-14-35, the respective boards of county commissioners shall take into consideration the number of streams crossing the highway and the probable necessity of the number of bridges to be constructed and to be kept in repair upon the county line. In apportioning the highway or stream, the boards shall equalize, as near as possible, the burden of building and maintaining the bridges on the highways of the county line. In case of a failure to apportion any such highway or meandered stream, as provided in § 31-14-35, the same shall be apportioned by the department.

31-14-38. County line bridges - Sharing of costs in absence of apportionment contract. Whenever the highway on the line between two counties has not been divided and portions thereof assigned to each county, and it is intended to build,

alter, or repair the bridges thereon, the cost shall be borne equally by such counties.

31-14-39. County line bridges - Petition and agreement for sharing costs in absence of prior apportionment contract. If a petition is filed with the board of county commissioners of either county affected thereby, praying for the building, altering, or repairing of any bridge described in § 31-14-38, and the petition is found to comply with the law relating to petitions for bridges, it shall be the duty of the board of county commissioners of such county immediately to cause a copy of such petition to be filed with the county auditor of the other county to be affected thereby, and at the same time to give the commissioners of such county notice of the time and place when and where the commissioners will meet to consider such petition. At such meeting of the county commissioners of the two counties jointly affected thereby, they shall view the site of such bridge, and if such petition is granted, then by agreement between such commissioners either county may build, alter, or repair such bridge and one-half the cost shall be borne by each of such counties.

31-14-40. County line bridges - Cost-sharing provisions not applicable where apportionment contract made. Where counties have heretofore, by mutual agreement, apportioned the boundary road and bridges between such counties, the provisions of §§ 31-14-38 and 31-14-39, shall not be applicable to such roads and bridges.

31-14-46. Unlawful agreements on contracts - Offering or receiving bribes - Felony. Any person receiving, or having any agreement to receive, a royalty, commission, percentage, or discount upon the contract price of any bridge, or piece of work, or bridge material, and who shall submit his sealed bid thereon with intent to secure the advantage of any competitive bidder, or any two or more persons who shall conspire together with intent to prevent competitive bidding upon any contract authorized by the provisions of this chapter or chapter 31-10 or chapter 31-15, or any officer or agent for any bridge company who shall give, or offer to give, to any public official anything of value for the purpose of influencing such official in awarding any contract authorized by such chapters, or any public official who shall receive or accept anything of value from any officer or agent for any such bridge company, shall be guilty of a Class 6 felony.

31-17

Boundary Line Highways

31-17-1. County highway system on state line--Agreements for assignment of responsibility. If any portion of a county highway system lies on a state line, the Department of Transportation may confer with the authorities of the bordering state and agree upon the assignment of portions of the highway to the counties of the two states for construction, repair, and maintenance.

31-17-2. Roads crossing county lines--Division of responsibility. Subject to approval of the department, boards of county commissioners of adjoining counties shall make proper connections between roads which cross county lines and which afford continuous routes of travel; adopt plans and specifications for highway construction, reconstruction, and repairs upon highways along and across county boundary lines, and make an equitable division between such counties of the cost and work of execution of such plans and specifications. In case of disagreement on the division, the Transportation Commission shall make the division.

31-17-3. Roads crossing county lines--Appeal to Transportation Commission on division of responsibility. If boards of county commissioners fail to perform the duty prescribed by § 31-17-2, or in case of disagreement by such boards, an appeal may be made to the Transportation Commission by one of them. The commission shall notify the county auditors of the counties concerned that the commission will, on a day not less than ten days thereafter, at a named time and place within one of such counties, hold a hearing to determine all matters involved. At the hearing the commission shall fully investigate all questions involved, and shall, as soon as practicable, certify its decision to the different boards. The decision is final, and such boards shall comply.

31-17-4. County highway system on county line--Effect of assignment to county. Any portion of a county highway system lying on a county line and assigned to a county by the Transportation Commission for construction and maintenance shall be considered as lying fully within the county and all procedure and requirements apply as if the road lay wholly within the limits of one county.

31-17-5. Secondary highway on county line - Assignment of responsibility. The secondary highways on county lines shall be assigned to the charge of the boards of supervisors of organized civil townships or the board of county commissioners in the case of unorganized territory as may be agreed upon by the respective boards of county commissioners and in case of disagreement, as determined by the transportation commission.

31-17-6. Secondary highway on township line - Assignment of responsibility. The secondary highways wholly within one county on lines between organized townships shall be assigned to the charge of such townships as the respective boards of supervisors may agree, and, in case of disagreement, as the board of county commissioners shall determine; and those on the line between organized civil townships and unorganized territory as the board of commissioners shall determine.

31-17-7. Boundary line highways between organized townships - Equal contribution by townships required unless mutual agreement reached. Adjoining townships shall contribute equally to the construction, improvement, and repair of any township highway that lies on a section line forming the

boundary between the townships. However, this section and §§31-17-8 to 31-17-15, inclusive, do not prohibit the supervisors of adjoining townships, by a majority of the supervisors from each township, from scheduling and holding a joint meeting of their township boards to mutually agree on alternative procedures for apportioning the responsibilities and costs of constructing, altering, or repairing any township boundary line highway, bridge, or culvert. Each township clerk shall record the time and location of the joint meeting and shall immediately publish notice of the proposed joint meeting in the same manner provided in §§8-3-4 and 8-3-5. Any order, notice, award, or apportionment contract, and any other documents resulting from the joint meeting shall be produced in duplicate, filed with each township office, and recorded by each township clerk. Any order, contract, or mutual agreement made before July 1, 1995, between adjoining township boards of supervisors apportioning or reapportioning a township boundary line road, bridge, or culvert is hereby validated and has the same force and effect as though executed after that date.

31-17-8. Township boundary line highways - Resolution calling for contribution. The board of supervisors of an organized township, to be called "moving townships" may by resolution declare the necessity of the construction, improvement or repairing of a township boundary line highway and call upon an adjoining organized township with which said highway forms a common boundary line, to contribute equally to the cost of such construction, improvement or repair.

31-17-9. Township boundary line highways - Service of resolution - Notice of meetings. A copy of a resolution adopted under §31-17-8 may then be served upon the board of supervisors of the adjoining township and such board shall within thirty days thereafter call a special meeting for the purpose of considering such resolution, and shall give notice in writing to the board of supervisors of the moving township of the time and place of such meeting, at least ten days in advance.

31-17-10. Township boundary line highways - Purpose of joint meeting. At the meeting provided for by §31-17-9, the board of supervisors of the moving township and that of the adjoining township shall meet jointly and consider the construction, improvement or repair of said boundary line highway, and shall endeavor to come to some mutual agreement thereon.

31-17-11. Township boundary line highways - Action brought on failure to agree on contribution. In the event that the board of supervisors of the adjoining township refuses to call a meeting as required in §31-17-9, or in the event that such meeting is held, but no agreement can be reached concerning the construction, improvement or repair of such highway, the board of supervisors of the moving township shall have the right, within thirty days, to bring an action in the circuit court against the adjoining township to require it to contribute equally to the cost of any necessary construction, improvement or repair of such highway.

31-17-12. Township boundary line highways - Parties and procedure in action to require contribution. In the action authorized by § 31-17-11 the moving township shall be the plaintiff and the adjoining township shall be the defendant; the action shall be commenced by the service of summons and complaint as in civil cases and shall be governed by the rules of civil procedure.

31-17-13. Township boundary line highways - Complaint and answer in action to require contribution. The complaint in an action pursuant to §31-17-11 shall briefly set forth sufficient facts to show that conditions exist which authorize the bringing of such action, a statement in reasonable detail describing the construction, improvement or repair of such highway which is claimed to be necessary, the estimated cost thereof, and the reasons the same are necessary; the adjoining township shall have thirty days to answer the complaint and in its answer shall briefly set forth the reasons why it claims it should not be required to contribute to such construction, improvement or repair.

31-17-14. Township boundary line highways--Judgment in action to require contribution. The court, by its judgment in an action pursuant to § 31-17-11, may determine the necessity and extent of any construction, improvement, or repair of such highway; the right to enforce equal contribution to the costs thereof by both townships; and the right to require the board of supervisors of both townships to jointly meet and advertise for bids and enter into a contract for the construction, improvement, or repair of such highway in the manner provided by §§ 5-18A-14 and 5-18B-10.

31-17-15. Township boundary line highways - Cumulative effect of provisions for equal contribution. Sections 31-17-7 to 31-17-14, inclusive, shall be cumulative to any existing rights or remedies of townships.

31-17-16. Secondary highways on municipal boundaries - Assignment of responsibility. The secondary highways on the boundary line of any municipality shall be assigned to such municipality and adjoining civil township or unorganized territory as provided in §§31-17-5 and 31-17-6.

31-18

Section-Line Highways

31-18-1. Existence of section-line highways by operation of law. There is along every section line in this state a public highway located by operation of law, except where some portion of the highway along such section line has been heretofore vacated or relocated by the lawful action of some authorized public officer, board, or tribunal.

31-18-2. Width of highways - Side from which taken. Every statutory section-line highway shall be sixty-six feet wide and shall be taken equally from each side of the section line, unless changed as provided in this title, but nothing herein contained shall prevent the highway authority charged with the construction,

reconstruction or repair of any public highway along a section line from purchasing or condemning right-of-way for widening the highway to more than sixty-six feet or from purchasing or condemning more right-of-way on one side of the section line than on the other, provided they deem it necessary so to do in order to provide a better highway, to avoid destruction of trees or valuable buildings or to avoid unsuitable terrain.

31-18-3. Vacation or change of location of highways. The board of county commissioners may vacate or change the location of any section-line highway under its jurisdiction and the board of supervisors of an organized township may vacate or change the location of any section-line highway under its jurisdiction, as provided in this title, but neither board may vacate or change any portion of the state trunk highway system or any highway constructed by state or federal aid or any highway within the limits of a municipal corporation. A board of supervisors may not vacate or change any portion of the county highway system, nor may a board of county commissioners vacate or change any portion of the township road system. No board of county commissioners or board of supervisors may vacate a section-line highway that provides access to public lands or public waters embracing an area of not less than forty acres. This section does not prohibit the closing of a section-line highway to vehicular traffic if the highway is unsafe for vehicular traffic.

31-18-4. Relicted lands - Highway rights continue. The apportionment, division, or survey of lands acquired by reliction, either by the owner or owners of such lands, or by virtue of the judgment of any court, pursuant to the provisions of this code, shall not in any manner operate as an abandonment or vacation of any legal highway along or across any such lands, and all section-line highways along or across any such lands shall continue to be public highways until changed or vacated in the manner provided by law.

31-18-5. Liability for unimproved section line. Notwithstanding the provisions of § 20-9-16, a landowner owes no duty of care to keep an unimproved section line safe for entry or use by any uninvited person for an outdoor recreational purpose or tourism activity. The landowner does not have a duty to give any warning of a dangerous condition, use, or structure on an unimproved section line to any uninvited person entering for an outdoor recreational purpose or tourism activity, except for any condition created by the willful and wanton act of the landowner.

31-21

Highway Drainage Ditches

Selected Statutes

31-21-1. Affidavit that ditch should be opened--Contents of affidavit--Notice of meeting of board of county commissioners--Examination of premises. Whenever any officer or person having charge of any road shall file with the

chairman of the township board of supervisors or board of county commissioners having jurisdiction of such road, his affidavit stating:

- (1) That such road runs into or through any swamp, bog, or meadow, or other lowland;
- (2) That it is necessary or expedient that a ditch should be opened through land belonging to any person;
- (3) The probable length of such ditch and the width and depth of the same as near as possible, the point at which it is to commence, its general course, and the point near which it is to terminate;
- (4) The names of persons owning the land, if known;
- (5) A description of the land over which such ditch must pass; and
- (6) That the road at that point cannot be made passable without extraordinary expense unless such ditch is laid out and opened;

it shall be the duty of the chairman of such board immediately to make out a notice and fix therein a time not less than six nor more than sixty days from the date thereof when the board of supervisors or board of county commissioners will meet at the place described in such affidavit and personally examine the premises.

31-21-2. Form of notice.

The notice required by § 31-21-1 may be in substantially the following form:

State of South Dakota

Condemnation of easements for Isolated Tracts

Selected Statutes Only

31-22-1. Right to access from isolated tract to highway. Every owner of an isolated tract of land containing at least ten acres not touched by a passable public highway or smaller tract of land containing at least five acres used or intended to be used in good faith in whole or in part for residential purposes is entitled to an easement or right-of-way across adjacent lands to reach a public highway, which easement or right-of-way may be secured as provided in this chapter. An isolated tract is further defined as an area which is either inaccessible by motor vehicle because of natural barriers from all other land owned by the owner of the isolated tract or is such an area which is not touched by a passable public highway, which is in use or reasonably usable for motor vehicles. A tract of land adjoining a section line right-of-way for at least sixty-six feet is not an isolated tract if a passable road can be built within the adjoining section line to connect to a passable public highway.

31-22-2. Inability to agree with servient landowner--Application to board of county commissioners--Contents of application--Notice to servient landowner--Contents of notice--Service of notice.

If the owner of such an isolated tract is unable to agree with the owner of surrounding lands for purchase of a right-of-way from such isolated tract of land to a public highway, he may apply to the board of county commissioners for relief, making his application in writing and describing the isolated tract and the surrounding land over which a right-of-way is desired. The county commissioners shall thereupon cause to be served upon the owner or owners of such surrounding land a notice in writing of a time when such board will visit such land and lay out one right-of-way across such surrounding land, and assess the damages therefor, which notice shall be served at least five days prior to the date set for such visit and appraisal.

Highway Intersections and Private Entrances

Selected Statutes Only

31-24-1. Duty of highway authorities to provide access to abutting property at public expense--New construction. If the construction, improvement, and repair of any public highway by the state, or by any county or township, leaves a ditch or elevation along the roadside and deprives any abutting landowner of easy and convenient access from the owner's land to the highway, the highway authority, except as provided by chapters 31-7 and 31-8, shall provide the owner of the abutting tract or farm, as well as each church, school, park, playground, or other public building or ground, with one point of easy and convenient access to a public highway by constructing at the public expense, such grades, approaches, bridges, culverts, or other structures as may be necessary for that purpose. However, the provision authorizing construction of entrances at the expense of the authority having charge of the maintenance only applies to new construction.

31-24-2. Approaches necessitated by highway construction--Maintenance. Approaches required by § 31-24-1 shall be built by the highway authority constructing the highway if the building of such approach becomes necessary as a result of highway construction. In all cases any such structure, culvert, bridge, or approach so constructed shall be maintained and kept in repair by the highway authorities who are charged with the maintenance of the highway.

31-24-3 Limitation on number of farm entrances--Additional entrances at owner's expense. The owner, as a matter of right, is not entitled under § 31-24-1 to the construction of more than one farm entrance on any one tract or parcel of land at the expense of the public authority whose duty it is to maintain the highway. However, the owner may at the owner's expense upon making application to and receiving written consent of the authority construct other

entrances if the entrances are constructed at the place and in the manner designated by the authority in its written permit.

31-24-4. Additional entrances to property previously having more than one farm entrance--Limitations. Notwithstanding § 31-24-3, if at the time of the construction, improvement, or repair of any public highway the abutting owner has more than one farm entrance to the highway, which entrance has been in reasonably constant use for more than two years prior to the new construction the owner shall be furnished a like number of entrances by the authority having charge of the construction, improvement, or repair, if the entrances do not materially add to the hazard of public travel on the highway. However, no owner of property adjoining the highway is entitled to more than two such entrances at the expense of the authority charged with the maintenance of the highway, on any one continuous half mile of adjoining property.

31-24-5. Construction on private property prohibited. No connecting structure or approach described by § 31-24-1 may be constructed by the highway authorities upon private property nor beyond the right-of-way line.

31-24-6. Entrance to existing highway at owner's expense--Permit--Construction in accordance with approved plans. If any public highway as already constructed is of such character as to deprive the owner of the butting land of easy and convenient access from the owner's land to the highway, the owner of the land may, at the owner's expense, except as provided by chapters 31-7 and 31-8, construct an entrance to the abutting land. However, no entrance may be constructed until the landowner has obtained a permit from the authority whose duty it is to maintain the highway for the construction of the entrance. The entrance shall be constructed in accordance with plans approved by the authority. The authority shall fix the width and location of the entrance and the entrance shall be constructed in accordance therewith.

31-24-7. Interference with drainage--Obstruction of right-of-way. No entrance may be so constructed pursuant to § 31-24-6 as to interfere with the proper and necessary drainage of the highway. No portion of the right-of-way of the highway other than that necessary for the entrance shall be occupied or used for business purposes.

31-24-9. Approaches to highway grade crossings--Failure to perform duty to provide--Petty offense. Township supervisors, county commissioners, the Department of Transportation, or others having direction of any highway grade shall provide at every place where such grade crosses an intersecting public highway an easy and accessible approach to such grade on each side thereof upon each such intersecting public highway. The approach shall be at least twenty-four feet in width. Any officer or other person charged with the duty of providing approaches at an intersection, as provided in this section, who fails in the performance of the duty, commits a petty offense.

31-25-1. Fences across highways - Petition by adjacent landowners - Notice and hearing - Gates or grates required. The board of county commissioners of any county having within its boundaries, any county, township, or section-line highway not included in §31-25-1.1 extending or running through or across grazing land, may, upon petition, signed by a majority of the adjacent landowners along the portion of such highway involved, and after a hearing is had, on notice mailed by the county auditor to all of said landowners, not less than ten days before such hearing, authorize such landowners to erect and maintain fences across such highway. However, the board of county commissioners shall require the erection of gates or grates, or both, in such fences at points designated by the board, so that the public may have access to the highway.

31-25-1.1. Fences erected across unimproved section-line highways - Gates - Access to highways protected - Violation as misdemeanor. A landowner may erect a fence across an unimproved county, township or section-line highway. For the purposes of this section an unimproved county, township or section-line highway is any county, township or section line not commonly used as a public right-of-way and never altered from its natural state in any way for the purpose of facilitating vehicular passage. At any point where a fence crosses such highway, the landowner shall erect and maintain an unlocked gate which may be opened easily or provide other suitable access to the highway. If the gate or other access is not large enough or if the gate does not open easily enough to satisfy the needs of those using the highway, the landowner shall erect a larger gate or a gate that can be more easily opened or provide other suitable access to the highway. The landowner shall erect the larger gate or the gate which opens easily or provide the other suitable access upon a request filed with the sheriff of the county in which the land is located by an adversely affected person. If a request is filed, the sheriff shall notify the landowner. The landowner shall comply with the provisions of this section within seven days of notice. A landowner who violates any of the provisions of this section is guilty of a Class 2 misdemeanor.

Upon application to the department of transportation, board of county commissioners or board of township supervisors, by any person for permission to construct a cattle way across or under any public road, such highway authority maintaining the highway described in the application may in its discretion grant the application upon condition that such way shall be constructed in all particulars as directed by such department or board and shall not interfere with public travel. The grade of the road over the cattle way shall not at any point exceed one foot in ten feet. Applicant must construct and agree to keep the same in repair at his own expense.

31-25-3. Failure of landowner to maintain cattle way - Repair by highway authorities - Recovery of cost. If any person on whose land a cattle way is constructed pursuant to §31-25-2 fails to keep the same in repair, the proper board shall cause the same to be repaired and charge the cost thereof to the owner of such cattle way and such cost shall be recovered by a civil action by the state, county, or township against the owner of such land and cattle way.

31-25-4. Livestock guards across county or secondary highways authorized - Guards not considered highway obstruction. The construction and maintenance of livestock guards over or across county or secondary highways so constructed that automobiles and trucks may pass over the same and which will prevent the passage of livestock across such livestock guards is hereby authorized. The construction and maintenance of such livestock guards shall not be considered as creating a barrier or obstruction on such highways.

31-25-5. Dimensions of livestock guard - Passage for wider vehicles. All livestock guards shall be at least ten feet wide on the ground. No livestock guards shall be constructed under §31-25-4, unless constructed by or under the express authorization of the governing body having jurisdiction over such highways, provided that such livestock guards may be removed or ordered removed by such governing bodies whenever such livestock guards shall be deemed no longer necessary.

31-25-7. Appeal from order authorizing or forbidding livestock guard - Procedure for appeal - Trial de novo. Whenever any interested person shall feel aggrieved by reason of the action of the governing body in authorizing or refusing to authorize the construction, erection and maintenance of livestock guards, or ordering removal of said livestock guard, such person may within sixty days after the decision of such governing body, appeal to the circuit court for the county wherein such governing body is situated. Such appeal shall be in writing, and signed by the person feeling aggrieved or by his attorney. Upon the serving of such appeal and the filing of the same with the clerk of the circuit court, the same may be brought on for trial de novo in said circuit court upon ten days' notice. The circuit court shall hear all relevant evidence and shall make and enter such findings, conclusions and judgment as it deems proper.

31-25-8. Appeal upon failure of governing body to act on request for authorization.

If any person shall file a request for authorization to construct a livestock guard, with the governing body having jurisdiction over such highway, and the governing body shall fail or neglect to act upon such request at its next regular meeting, such failure or neglect to take any action shall be deemed to be a refusal

of such authorization, and the person filing such request may appeal the same as provided in §31-25-7.

31-25-9. Livestock guards constructed prior to enactment of statute. Sections 31-25-4 to 31-25-8, inclusive, shall not apply to livestock guards which had been constructed and maintained and were in existence on February 20, 1959.

31-25-10. Regulatory signs for unfenced roads in livestock grazing area - Application for erection. Any person grazing livestock in an area where there are no fences along a road may apply to the governing body that has the responsibility to maintain that road to erect a regulatory sign that livestock will be at large along the road. If the governing body permits the erection of such signs, it shall erect at least one sign where the road enters the grazing area which shall state how far the grazing area continues and one sign where the road leaves the grazing area.

31-25-11. Uniform signs. The transportation commission shall design, produce and make available a uniform sign pursuant to § 31-25-10.

Before August 1, 2022, the Department of Revenue shall distribute a portion of the sum of three million dollars to each county based on the allocation calculated in accordance with this section for the purposes described in § 31-34-3. Each county's allocated percentage is calculated by using the total number of small structures on township roads and county secondary roads located in a county divided by the sum of all small structures on township roads and county secondary roads in the state as reported to the Department of Transportation, multiplied by one hundred. Each county that receives moneys from this rural access infrastructure program shall use the moneys in accordance with the provisions of this chapter.

32-14-6. Restrictions respecting weight of vehicle - Duration of period of restriction - Erection of signs designating restricted area. Local authorities, including road districts, may by ordinance or resolution prohibit the operation of vehicles upon any highway or impose restrictions as to the weight of vehicles allowed. Such prohibitions or restrictions apply only to vehicles to be operated upon any highway under the jurisdiction of and for the maintenance of which such local authorities are responsible and only if the highway by reason of physical condition, rain, snow, or other climatic conditions will be seriously damaged or destroyed unless the use of vehicles on the highway is prohibited or the permissible weights of the vehicles are reduced. Any local authority enacting any such ordinance or resolution shall erect and maintain or cause to be erected and maintained signs designating the provisions of the ordinance or resolution at each end of that portion of any highway affected by the ordinance or resolution. Weight, Size and Load Restrictions

Selected Statutes Only

32-22-24. Reduced load maximums from February fifteenth to April thirtieth - Changing restrictions - Overweight permits - Violation as misdemeanor. The maximum axle and axle group loadings as set forth in § 32-22-16 shall be reduced during the period of each year from February fifteenth to April thirtieth, inclusive. The proper highway authority, responsible for maintenance of the highways, shall set reduced load limits during this period and may increase, lessen, or remove these restrictions if highway conditions warrant. That authority may be exercised without formal resolution if the highway authority erects or causes to be erected and maintained signs designating the restrictions. If highway and climatic conditions warrant, the proper highway authority may extend the time period mentioned in this section by ordinance or resolution. Nothing in this requirement, however, removes or interferes with the proper highway authority imposing restrictions as set forth in §§ 32-14-6, 32-14-7, and 32-22-25. Moreover, during the time period mentioned in this section the transportation commission may, pursuant to § 32-22-42, allow the issuance of overweight permits to heavier vehicles to permit such vehicles to be operated on those highways which the commission designates as capable of handling heavier loads. A violation of this section is a Class 2 misdemeanor.

32-22-25. Reduced weight maximums on specific roads - Notice - Exceeding weight limit as misdemeanor. If, for any reason, the improved highways of this state are rendered incapable of bearing the customary traffic without undue damage, or if it is considered by the Department of Transportation, the board of county commissioners of any county, the board of supervisors of any township, or the board of trustees of any road district, that the improved highways or any section of them under their jurisdiction would be damaged or destroyed by heavy traffic by reason of thawing or excessive moisture, or for any reason, the maximum weight of the vehicle and the load shall be reduced. Notice of any

restriction under this section shall be given by placing at each end of that section of highway on which the allowable weight limit is reduced and at points of intersection, as deemed necessary by the proper highway authority, signs of substantial construction which conspicuously indicate the limitations of the gross weight of the vehicle. Exceeding such weight limits is a Class 2 misdemeanor.

32-25

Speed Zones

32-25-9.1. Establishment of speed zones by county commissioners--Posting of zones. Any board of county commissioners may determine and establish speed zones upon all or any part of the highways under its jurisdiction and upon streets and highways on the request of and after any other local authority, including any road district, having charge of the maintenance of the highway has declared its intention to post speed zones. Such speed zones shall be conspicuously posted at the beginning and ending of the zones.

32-25-9.2. Township road speed limit--Violation as misdemeanor. No person may drive a vehicle on a township road in excess of fifty-five miles per hour. However, notwithstanding the provisions of § 32-25-9.1, any board of township supervisors may determine and establish speed zones upon all or any highways under its jurisdiction. The township board shall notify the county of any changes and the speed zones shall be conspicuously posted at the beginning and ending of the zones. Driving in excess of the speed limit established in this section or by the township board pursuant to this section is a Class 2 misdemeanor.

32-25-15. Speed limit at intersections with obstructed view--Violation as misdemeanor. When approaching within fifty feet of and when traversing an intersection of highways when the driver's view is obstructed the maximum lawful speed shall be fifteen miles per hour. A driver's view is obstructed if at any time during the last fifty feet of his approach to such intersection, he does not have a clear and uninterrupted view of such intersection and of the traffic upon all of the highways entering such intersection for a distance of two hundred feet from such intersection. A violation of this section is a Class 2 misdemeanor.

be upon the state agency or subdivision supervising such lands or highways, and paid out of funds appropriated to its use.

38-22-22.1. Responsibility for weed and pest control. All provisions, requirements, and responsibility for weed and pest control included in this chapter apply to all state government agencies and subdivisions on lands, highways, and roads owned, managed, maintained, or supervised by the government entity.

38-22-23.13. Resolution of board confirming infestation and stating remedial requirements--Service on owner--Termination of resolution. If the suspected area is found to contain weeds or pests, the county weed and pest board, by resolution adopted by a majority of its members, shall confirm such fact and set forth minimum remedial requirements for control of the area. The board shall mail, by certified mail, to the address of the landowner, a copy of the resolution, a statement of the approximate cost of fulfilling the requirements, and a request that the requirements contained in the resolution be carried out at the owner's expense within a designated period of time. When the board is satisfied that the requirements have been met, the board shall terminate the resolution and file a copy of the termination with the register of deeds.

38-22-23.14. Remedial action by board on owner's failure--Certification of expenses--Collection. If the landowner fails or refuses to perform as required within the time designated, the county weed and pest board may proceed to perform the requirements. The board shall certify its expenses to the county auditor, and the auditor shall bill the landowner for the amount of the expenses, plus an administrative fee of fifty dollars or ten percent of the cost of control, whichever is greater. If the landowner has not paid the bill by November first of the calendar year in which the expenses were incurred, the amount of the bill shall be further increased by ten percent, and the adjusted amount shall be charged as taxes against each tract of land on which the expenses were incurred. The adjusted amount shall be collected as other taxes and credited to the general fund.
